

Advantage[™] Series Switch-Rated IEC Pin & Sleeve Devices

Highest Performing IEC Pin & Sleeve Connections for the Most Demanding Environments

Advantages by Design

Power Indicating LED Lights Provides visual verification of power when connected.

Ergonomic Design Hubbell puts the Advantage[™] into the palm of your hands with the easy-to-use leverage grip design from Hubbell.

Spring-Loaded Cover

11.7

Spring-loaded to the open position, reminding users that the cover must be secured to ensure maximum ingress protection.

Hubbell's Pin and Sleeve connections have always been safe, that hasn't changed. The Advantage[™] Series simply has...

More Advantages

P69k

IEC 60309 Singularly Rated Device

Mates with existing installed base of IEC 60309-2 pin and sleeve devices. Color coded by voltage for easy identification of mating devices.

Superior Water Ingress Protection

UL witnessed IP69k and UL Type 4X and 12. Built to withstand wet and harsh environments.

Power Indicating LED Lights

Highly visible, long lasting green LED lights on both sides of the device provide visual verification of power when connected.

Continuous Ground Engagement

Unswitched feed-through ground pin is first-to-make and last-to-break followed by switched neutral and phase contact(s).

Heavy Duty External Cord Grips

Provide maximum cord retention to maintain unstressed terminations.

Pocketed Recess for Screws

Deters slippage of the screwdriver and are conveniently located on the same side for easy installation.

Robust and Durable Housing

The UV-stabilized, impact and corrosionresistant PBT housing is designed to withstand harsh industrial environments.

Compact Design

Device is similar in size to standard IEC 60309-2 devices. Receptacles mount to standard Hubbell IEC pin and sleeve back boxes.

Stainless Steel Hardware

Provides superior corrosion resistance in wet and harsh environments.

Permanent Labelless Markings

Product ratings are laser-marked into the device and will not wash off for easy permanent identification.

Sleek Modern Design

Ergonomic device is easy to clean, making it ideal for hygienic food processing facilities.

Designed to Higher Standards

UL 2682

The standard to which all switch-rated plug and connectors are tested.

Hubbell's Advantage[™] Series Switch-Rated connections passed and established new benchmarks for mechanical and electrical performance in this category. Robust **100kA** Max Short Circuit Current Interruption (SCCR)*, and up to a **50HP** rating, far exceed most application requirements, making it the ideal solution for your motor connections.

* When protected by appropriate fuse.

NEC[®] Section 430.102(B)

Requires each motor controller to have a disconnecting means within line of sight from the motor and driven equipment.

Advantage[™] Series IEC Pin and Sleeve Switch-Rated Devices are approved as disconnecting means for both motor circuits and branch circuits.

Accessories

15° Angle Back Box

| Description | NPT Hub Size* | Metallic | Non-Metallic |
|--------------------|---------------|----------|--------------|
| 30 and 32A devices | 1" | BB301W | BB2030N |
| 60 and 63A devices | 11⁄4" | BB601W | BB60N |
| 100 devices | 11⁄2" | BB1001W | BB100N |

Note: *Hub is not included; order one of the following Raco® part numbers:

1 in. = 1704, 1¼ in. = 1705, 1½ in. = 1706. These boxes meets IP67 requirement and Type 4X requirements when installed with a watertight conduit hub.

Liquidtight Adapters

*Certain IEC configurations allow for a single product to be certified as both a North American (Series 2) and International amperage (Series 1). These products are marked accordingly with both the UL Listing and UL Classified markings.

**Mating plug or inlet required to maintain 4X/IP69k ratings when used with Advantage™ Series Connections.
